APPENDIX	15

INTRODUCTION

This document is intended as a guide to support the submission of accurate and complete Compressed Air project applications. All applicants with Compressed Air projects should ensure the application meets the Eligibility Requirements set out in the Participant Terms and Conditions, Contractor Code of Conduct and Eligible Measures List. The applicant must submit the requested documentation and answer the questions contained within this document.

This checklist includes guidance for what needs to be entered in each input field at Step 4 and Step 5 of the Application process. Step 5 specifically describes which documents need to be uploaded and their purpose.

GUIDANCE ON APPLICATIONS

The following sections provide guidance on Compressed Air applications, ensuring that they are complete, accurate and comprehensive.

The applicant and/or contractor will also need to provide the following information in Step 4 and Step 5 of the application submission, as further described in the tables below.

STEP 4 OF PRE-PROJECT APPLICATION

COMPRESSED AIR STORAGE

Field	What to Enter	How Data or Input Provided is Used
Quantity	Enter the number of measures	Used to calculate
Quantity	being installed.	eligible incentive.
	being instaned.	 Post-project QA/QC.
Compressed Air Pressure (PSIG)	Enter pressure of compressed	Post-project QA/QC.
	air used in PSIG.	
Type of Air Compressor	Select from list the air	Post-project QA/QC.
	compressor type:	
	Rotary Screw	
	Reciprocating	
	Other	
Is Tank Primary?	Select either Yes or No.	 Post-project QA/QC.
HP of Air Compressors	Enter HP of air compressors.	Post-project QA/QC.
nr of All Compressors	Enter HP of all compressors.	
Air Receiver Volume (USG)	Enter volume of air receiver in	Post-project QA/QC.
	USG.	
Age of Air Compressor	Enter age of air compressor.	Post-project QA/QC.
Approximate Average % Loading	Enter average loading of	Post-project QA/QC.
of Compressors	compressors in percentage.	
Compressed Air Storage	Upload the specification sheet	Post-project QA/QC.
Specification Sheet	for the measure.	
	Indicate/circle which specific	
	equipment is being used	
	for project.	
Equipment & Material Costs	Enter equipment and material	Calculate eligible incentive.
	costs as indicated on the	-
	invoice/final quote.	 Post-project QA/QC.
Labour Cost	Enter labour costs as indicated	Calculate eligible incentive.
	on the invoice/final quote.	 Post-project QA/QC.
Design Cost	Enter design costs and include	Calculate eligible incentive.
	all other costs as indicated on	• Post-project QA/QC.
	the invoice/final quote.	

CYCLING OR THERMAL MASS REFRIGERATED DRYER

Field	What to Enter	How Data or Input Provided is Used
Quantity	Enter the number of measures being installed.	 Used to calculate eligible incentive. Post-project QA/QC.
Compressed Air Pressure (PSIG)	Enter pressure of compressed air used in PSIG.	Post-project QA/QC.
Type of Air Compressor	Select from list the air compressor type: • Rotary Screw • Reciprocating • Other	• Post-project QA/QC.
Approximate Average % Loading of Compressors	Enter average loading of compressors in percentage.	Post-project QA/QC.
Are you Replacing a Non-cycling Refrigerated Compressed Air Dryer?	Select either Yes or No.	• Used for checking if the measure is eligible.
Size of New Dryer (CFM)	Enter new dryer size in CFM.	Post-project QA/QC.
Number of Air Compressors in Operation	Enter number of air compressors in operation.	Post-project QA/QC.
Horsepower of Air Compressors in Operation	Enter HP of air compressor in operation. If multiple compressors of varying capacity are installed, then enter the average value.	• Post-project QA/QC.
Number of Air Compressors on Standby	Enter number of air compressors on standby.	Post-project QA/QC.
Horsepower of Air Compressors on Standby	Enter HP of air compressors on standby. If multiple compressors of varying capacity are installed, then enter the average value.	• Post-project QA/QC.
Dryer Specification Sheet	Upload the specification sheet for the measure. Indicate/circle which specific equipment is being used for project.	• Post-project QA/QC.
Equipment & Material Costs	Enter equipment and material costs as indicated on the invoice/final quote.	 Calculate eligible incentive. Post-project QA/QC.

Labour Cost	Enter labour costs as indicated on the invoice/final quote.	Calculate eligible incentive.Post-project QA/QC.
Design Cost	Enter design costs and include all other costs as indicated on the invoice/final quote.	 Calculate eligible incentive. Post-project QA/QC.

DESSICANT DRYER DEWPOINT DEMAND CONTROLS

Field	What to Enter	How Data or Input Provided is Used
Quantity	Enter the number of measures being installed.	 Used to calculate eligible incentive. Post-project QA/QC.
Compressed Air Pressure (PSIG)	Enter pressure of compressed air used in PSIG.	Post-project QA/QC.
Type of Air Compressor	Select from list the air compressor type: • Rotary Screw • Reciprocating • Other	• Post-project QA/QC.
Approximate Average % Loading of Compressors	Enter average loading of compressors in percentage.	 Post-project QA/QC.
Number of Air Compressors in Operation	Enter number of air compressors in operation.	Post-project QA/QC.
Horsepower of Air Compressors in Operation	Enter HP of air compressor in operation. If multiple compressors of varying capacity are installed, then enter the average value.	• Post-project QA/QC.
Number of Air Compressors on Standby	Enter number of air compressors on standby.	Post-project QA/QC.
Horsepower of Air Compressors on Standby	Enter HP of air compressors on standby. If multiple compressors of varying capacity are installed, then enter the average value.	• Post-project QA/QC.
Are you replacing a fixed, timer regeneration control?	Select either Yes or No.	Used for checking if the measure is eligible.
Size of Dryer (CFM)	Select either Yes or No.	Post-project QA/QC.
Desiccant Dryer DDC Specification Sheet	Upload the specification sheet for the measure. Indicate/circle which specific equipment is being used for project.	• Post-project QA/QC.
Equipment & Material Costs	Enter equipment and material costs as indicated on the invoice/final quote.	 Calculate eligible incentive. Post-project QA/QC.
Labour Cost	Enter labour costs as indicated on the invoice/final quote.	Calculate eligible incentive.

		• Post-project QA/QC.
Design Cost	Enter design costs and include all other costs as indicated on the invoice/final quote.	Calculate eligible incentive.Post-project QA/QC.

LOW PRESSURE DROP FILTER

Field	What to Enter	How Data or Input Provided is Used
Quantity	Enter the number of measures being installed.	 Used to calculate eligible incentive. Post-project QA/QC.
Compressed Air Pressure (PSIG)	Enter pressure of compressed air used in PSIG.	Post-project QA/QC.
Type of Air Compressor	Select from list the air compressor type: • Rotary Screw • Reciprocating • Other	• Post-project QA/QC.
Number of Air Compressors in Operation	Enter number of air compressors in operation.	Post-project QA/QC.
Horsepower of Air Compressors in Operation	Enter HP of air compressor in operation. If multiple compressors of varying capacity are installed, then enter the average value.	• Post-project QA/QC.
Number of Air Compressors on Standby	Enter number of air compressors on standby.	 Post-project QA/QC.
Horsepower of Air Compressors on Standby	Enter HP of air compressors on standby. If multiple compressors of varying capacity are installed, then enter the average value.	• Post-project QA/QC.
Are you replacing a standard, coalescing filter?	Select either Yes or No.	Used for checking if the measure is eligible.
Size of Existing Filter (CFM)	Enter existing filter size in CFM.	Post-project QA/QC.
Diameter of Existing Filter (in)	Enter existing filter diameter in inches.	Post-project QA/QC.
Pressure Drop across Existing Filter (psi)	Enter pressure drop across existing filter in PSI.	Used for checking if the measure is eligible.
Filter Specification Sheet	Upload the specification sheet for the measure. Indicate/circle which specific equipment is being used for project.	• Post-project QA/QC.
Equipment & Material Costs	Enter equipment and material costs as indicated on the invoice/final quote.	 Calculate eligible incentive. Post-project QA/QC.

Labour Cost	Enter labour costs as indicated on the invoice/final quote.	Calculate eligible incentive.Post-project QA/QC.
Design Cost	Enter design costs and include all other costs as indicated on the invoice/ final quote.	Calculate eligible incentive.Post-project QA/QC.

NOZZLES

Field	What to Enter	How Data or Input Provided is Used
Quantity	Enter the number of measures being installed.	 Used to calculate eligible incentive. Post-project QA/QC.
Compressed Air Pressure (PSIG)	Enter pressure of compressed air used in PSIG.	Post-project QA/QC.
Retrofit Scenario	 Select from the list the retrofit scenario type: Installed on Open Pipe Replacing Existing Nozzle 	 Post-project QA/QC.
Application Type for Nozzles	Enter application type for nozzles.	Post-project QA/QC.
Type of Air Compressor	Select from list the air compressor type: Rotary Screw Reciprocating Other	• Post-project QA/QC.
Nozzle Specification Sheet	Upload the specification sheet for the measure. Indicate/circle which specific equipment is being used for project.	• Post-project QA/QC.
Equipment & Material Costs	Enter equipment and material costs as indicated on the invoice/final quote.	 Calculate eligible incentive. Post-project QA/QC.
Labour Cost	Enter labour costs as indicated on the invoice/final quote.	 Calculate eligible incentive. Post-project QA/QC.
Design Cost	Enter design costs and include all other costs as indicated on the invoice/final quote.	 Calculate eligible incentive. Post-project QA/QC.

VFD AIR COMPRESSOR

Field	What to Enter	How Data or Input Provided is Used
Quantity	Enter the number of measures being installed.	 Used to calculate eligible incentive. Post-project QA/QC.
Existing Compressor Rated Size HP	Enter existing compressor rated size in HP.	Post-project QA/QC.
Existing Compressor Rated Flow Capacity CFM	Enter existing compressor rated flow capacity in cubic feet per minute.	• Post-project QA/QC.
Nameplate Picture of Existing Compressor	Upload the nameplate picture of existing compressor.	• Post-project QA/QC.
Existing Compressor Type	Select from the list the existing compressor type: Rotary Screw Reciprocating Other	• Post-project QA/QC.
Estimated Annual Hours of Operation	Enter estimated annual hours of operation.	• Post-project QA/QC.
New Compressor Type	Select from the list the new compressor type: • Rotary Screw • Reciprocating • Other	• Post-project QA/QC.
Specification Sheet of New Compressor	Upload the specification sheet for the measure. Indicate/circle which specific equipment is being used for project.	• Post-project QA/QC.
Equipment & Material Costs	Enter equipment and material costs as indicated on the invoice/final quote.	 Calculate eligible incentive. Post-project QA/QC.
Labour Cost	Enter labour costs as indicated on the invoice/final quote.	 Calculate eligible incentive. Post-project QA/QC.
Design Cost	Enter design costs and include all other costs as indicated on the invoice/ final quote.	 Calculate eligible incentive. Post-project QA/QC.

ZERO LOSS DRAIN

Field	What to Enter	How Data or Input Provided is Used
Quantity	Enter the number of measures being installed.	 Used to calculate eligible incentive. Post-project QA/QC.
Existing Drain Type	Enter type of existing drain.	Post-project QA/QC.
Existing Drain Picture	Upload the existing drain picture.	Post-project QA/QC.
Pipe Diameter of Drain Connection	Enter pipe diameter of drain connection in inches.	Post-project QA/QC.
Estimated Number of Times Drain Operates a Day	Enter estimated number of times drain operates in a day.	Post-project QA/QC.
Air Compressor Type	Select from the list air compressor type: • Rotary Screw • Reciprocating • Other	Post-project QA/QC.
Air Compressor HP	Enter HP of air compressor.	Post-project QA/QC.
Compressed Air Pressure (PSIG)	Enter compressed air pressure in PSIG.	Post-project QA/QC.
Zero Loss Specification Sheet	Upload the specification sheet for the measure. Indicate/circle which specific equipment is being used for project.	• Post-project QA/QC.
Equipment & Material Costs	Enter equipment and material costs as indicated on the invoice/final quote.	 Calculate eligible incentive. Post-project QA/QC.
Labour Cost	Enter labour costs as indicated on the invoice/final quote.	 Calculate eligible incentive. Post-project QA/QC.
Design Cost	Enter design costs and include all other costs as indicated on the invoice/final quote.	 Calculate eligible incentive. Post-project QA/QC.

STEP 5 OF PRE-PROJECT APPLICATION: ALL COMPRESSED AIR MEASURES

Field	What to Enter	How Data or Input Provided is Used
Cost Quote	Quote or invoice should be itemized to include quantity, brand, model numbers for equipment, applicant name, contractor name, facility address and date (sample quote provided in the Appendix). Costs should be indicated separately for: • Equipment and Material, • Labour, • Design and Others, and • Taxes.	 Cross-reference against provided costs. Calculate incentive cap. Post-project QA/QC.
Electricity Bill for Facility	Upload the most recent electricity bill available for the facility.	• Ascertain rate class.

POST-PROJECT APPLICATION

Note that for the post-project application, you will be required to confirm that no changes were made from the pre-project application, unless an Application Change Approval Notice was issued by ERA. In terms of documents required, you will need to provide evidence of the following:

- Invoice for Project Costs,
- Proof of Payment for Project Costs, and
- Conditions stated in the Notice of Pre-Approval.

Participant may be subject to a QA/QC check and asked for additional documentation to facilitate a site visit.

APPENDIX

SAMPLE INVOICE/FINAL QUOTE

Quotes should be itemized to include quantity, brand, model numbers for equipment, applicant name, contractor name, facility address and date. Costs should be indicated separately for:

- Equipment and Material,
- Labour,
- Design and Others, and
- Taxes.

A sample quote is provided below:
